Illuminate Smooch Pearlized Ink		Sticky Strip
Metal DVD Case		

Step-By-Step Directions

1. Cut magnet sheet and Attic Boutique Designer Series paper to 4 ½" x 6". Adhere the DSP to the magnet sheet and place the Labels Collection Framelit on top and run through Big Shot to cut.
2. Framelit will not cut all the way through the magnet sheet so you will need to turn the magnet sheet over and match up the Framelit to cut in the same place. Remove cut out.
3. Put a piece of sticky strip across the bottom of the DSP and adhere a piece of crumb cake seam binding, letting a little extra hang over the project. Adhere another piece of sticky strip over the seam binding and adhere Crochet ribbon over it, letting a little extra hang over the project. Turn the magnet sheet over and cut the ribbon so that it fits the project exactly.
4. Open a metallic brad and create a crochet ribbon bow and adhere to the front of the project.
5. Stamp a greeting on Vanilla card stock in Pool Party ink and cut out with smallest Framelit. Sponge edges with Soft Suede Classic Ink. Adhere to front of project using Stampin' Dimensionals. Stamp larger greeting on Vanilla card stock and cut out with the next size Framelit and sponge edges with Soft Suede Classic Ink. Adhere to punched out piece of DSP/Magnet sheet using Snail adhesive. Decorate both greetings with Basic Pearls.
6. To create the flowers: Punch out two 1 ¼" circles of Pool Party card stock and one 1" piece of So Saffron card stock. Spiral cut all of them and then wrap around a wood skewer (or something that size). Adhere with mini glue dots. Put a Basic Pearl in the center of each and adhere to project.
7. Paint edges of roses with Illuminate Smooch Pearlized Accent Ink.

8. Put a photo on the front of the tin and place the magnetic frame on top of it. You can use coordinating card stocks to border your other photos and store inside the DVD tin. Put the greeting/punch out on the inside of the tin.
