Hearts a Flutter Stamp Set		
5/8" Crochet Trim	9" approx.	
Pool Party 3/8" Ruffled Ribbon	10" approx.	
Big Shot		Adhesives: Sticky Strip, Glue Dots,
Hearts a Flutter Framelits Dies		Multipurpose Liquid Glue

Step-By-Step Directions

1. Stamp Heart outline from Hearts a Flutter stamp set in Primrose Petal ink on the piece of vellum. Start by stamping one heart in the center (you will be using this one heart as a guide later). Randomly stamp hearts around this one. Take your time stamping on the vellum, it can smear easily. Set aside this piece until dry.

2. Once your vellum piece is dry, place sticky strip on one 4" edge. Tape edges together creating cylinder.

3. Place sticky strip on one 4" edge of window sheet. Adhere ends together creating cylinder. Place this cylinder over the vellum one. (They fit snugly, so a tip is to fold in the vellum cylinder a little, be sure not to crease it, and then slide it in and let it unfold.) Twist pieces to line up seams.

4. Cut one heart out of the laser cut More Amore Specialty DSP. Stamp the little hearts image from Hearts a Flutter stamp set in Primrose Petals in the center of the laser cut heart. Cut the stamped heart out of the center of the laser cut heart, using the small heart from the Hearts a Flutter Framelits Die. Save the little heart for a later step. Apply little dots of Multipurpose Liquid Glue to the back of the big heart. Glue to the front of the window sheet, centering around the stamped center heart on the vellum. Let dry.

5. Cut a piece of 5/8" Crochet Trim to fit around the cylinders and overlap about ¼". Place Sticky Strip along the back of the crochet trim. Starting in the front, where you would like your heart

and flower embellishment to be, adhere the crochet trim to the cylinder.

6.   Cut a piece of Pool Party 3/8" Ruffled Ribbon to fit around the cylinder plus 1" if you would like a little 'tail' to show. Cut one end at an angle, for the 'tail'. Place Sticky Strip on the back of the ribbon, ending about ¾" away from the tail. Adhere to the cylinder on top of the crochet trim.

7.   Take the little heart you cut out earlier and adhere the smaller very vanilla resign flower from the Artisan Embellishment Kit to the center of this heart using Glue Dots or Multipurpose Liquid Glue. Let dry.

8.   Once that is dry, adhere to the front of the cylinder covering trim edges, using Glue Dots or Multipurpose Liquid Glue.
